

# How are you feeling today?? Assess your health!!

Check any symptoms that apply to you. The more checks under a given supplement, the greater the likelihood that you will benefit from adding this nutrient to your supplement program. In no way should this form be mistaken as a diagnosis of a disease, nor should supplements be expected to 'cure' any disease.

## The Basics

**Vita Lea:** a balanced multivitamin, multimineral supplement insures a good foundation for all programs!
